

# SybizVision

Business Intelligence Centre

## QUALITY DECISIONS THROUGH ADVANCED REPORTING

Business Intelligence is a collective term that refers to the rapid transformation of business data into information to enable quality decisions to be made. Business Intelligence software comes in many forms and Sybiz has worked with Alchemex, a leading Business Intelligence specialist, to deliver the value-packed Sybiz Vision Business Intelligence Centre (BIC) module. Using the often untapped power of Microsoft Excel®, Sybiz Vision BIC transforms your company's data into valuable information, reducing the guesswork when making decisions.

The Sybiz Vision BIC module gives you instant access to 'live' information. It also retains report formats and makes them available for future use. With Sybiz Vision BIC you can generate spreadsheets by simply extracting Sybiz Vision accounting data and converting it to an easy-to-read format.

## SYBIZ VISION BUSINESS INTELLIGENCE CENTRE BENEFITS INCLUDE:

### Time Savings

Monthly financials usually account for a large percentage of manual Microsoft Excel® labour. The greatest benefit offered by Sybiz Vision BIC is that it frees up time, which is always a major factor for key staff. Automation creates freedom to be more productive.

### Automated Management Pack with Drill Down

Sybiz Vision BIC offers a dynamic management report pack which provides drill down functionality. Because it's all in one Microsoft Excel® workbook, it can be saved and easily distributed. With the drill down facility you can configure your own selected drill downs across modules, companies and databases – all in Microsoft Excel®.

### Integration with Sybiz Vision

Sybiz Vision BIC empowers Sybiz customers with the benefits of automated Microsoft Excel® reporting. BIC is an add-on module that dynamically links to your Sybiz Vision accounting data, taking your business to the next level of reporting.

### Cost Effectiveness

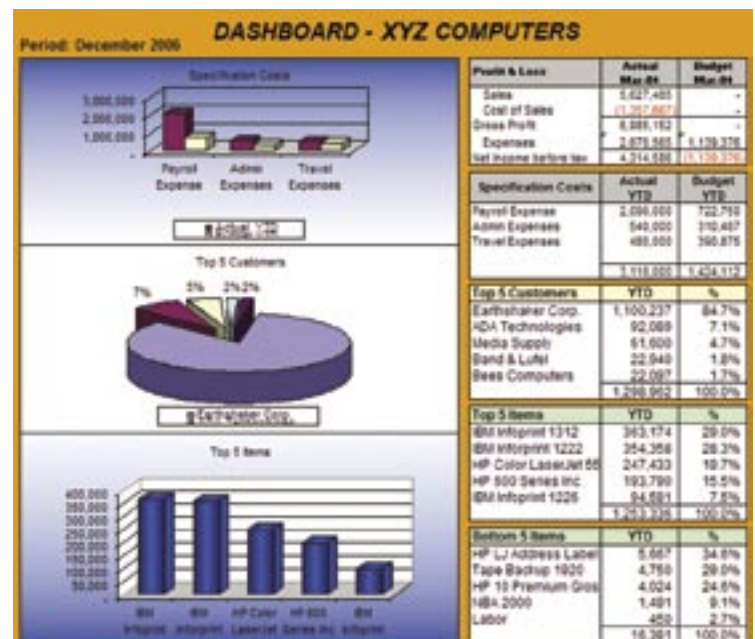

The initial investment in Sybiz Vision BIC is affordable for any company and ROI is swift and repetitive. Sybiz Vision BIC adds to the bottom line and translates into financial intelligence.

### Consolidations

Consolidate and automate financial information across companies, departments and divisions in summary and in detail.

### Detailed Dashboard Display

It's now easier than ever to keep an eye on how your business is travelling by using the dashboard feature.

### Customisation

Customise your own management pack layout by selecting from a number of macro-driven management pack design options. Sybiz Vision BIC includes a variety of useful management reports including a Monthly Management Pack, Sales, Inventory and other essential reports. Creating your own reports in Microsoft Excel® is now much easier!

The Sales Master template serves as a basis for custom-built sales analysis with the ability to drill down to details. The Inventory Master template serves as basis for custom-built access to stock levels and movement in Microsoft Excel® with the ability to drill down to details.

### Other benefits include the ability to:

- auto-generate account groupings when setting up your pack using specific rules for your company
- reduce manual data entry to minimise the risk of human error
- create relationships between data entities using the graphical join facility

### With Sybiz Vision BIC:

- logic built into reports alerts users when new GL accounts have been added and/or deleted
- no additional databases are required
- all rules of extraction are defined in Sybiz Vision BIC reports
- existing templates are used to fast-track custom reporting
- the Microsoft Windows Explorer® look and feel is familiar and easy to use

### System Requirements

The minimum requirements to run Sybiz Vision BIC are:

- A computer with a CD-ROM drive running Microsoft Windows® 2000 or Microsoft Windows® XP Professional (please note, this software will not install on Microsoft Windows® XP Home Edition or Microsoft Windows® ME operating systems)
- 64 MB of RAM (128 MB recommended) and 256 screen colours at 800 x 600 pixels
- Pentium 400 MHz processor
- 250 MB hard disk space plus data
- Microsoft Excel® 2000 and upwards

This module is not a stand-alone product and operates with Sybiz Vision. A version of BIC for Sage Pastel Evolution is also available.

### Contact Details

Sybiz is a developer and supplier of business software for medium-sized businesses in Australia and internationally. With more than 30 years of industry expertise and continual innovation, Sybiz creates and designs software for globally orientated businesses.
