

SybizVision

General Ledger

THE FAST AND USER-FRIENDLY ACCOUNTING SOLUTION

Sybiz Vision General Ledger, with its cashbook feature, is a real-time, online solution that underpins the entire Sybiz Vision system.

Sybiz Vision General Ledger is ideal for businesses that:

- need to transfer data to their accountant electronically
- set budgets and monitor their performance levels
- require structured cost centre based accounting
- trade in foreign currency with customers and suppliers
- need foreign currency bank accounts

GENERAL LEDGER BENEFITS INCLUDE:

Budget Management

Each General Ledger account can have up to six budgets. This Year, Last Year and Next Year columns are available for comparative financial reporting with another set of budgets for cash flow analysis. You can also export data to Microsoft Excel®, where you can perform complex data manipulations.

Actual Versus Budget reporting can be represented on screen with a series of graphical reports for a quick view.

Payments Processing

Payments can be processed individually or as a batch and sent to a transfer file for uploading to your bank. Cheques can be printed on combined remittance forms or cheque forms. The most common payment method is electronic funds transfer and remittances to suppliers can be emailed automatically.

GST Reporting

Sybiz Vision is set up to handle relevant GST reporting and can cater for either cash or accrual accounting methods. Each GST period is closed separately to the normal end of month function, enabling you to produce accurate, easy-to-audit GST reports. Reports can also be exported to Microsoft Excel®.

Sybiz Vision Cashbook

Sybiz Vision has a powerful cashbook available as part of the General Ledger. Important features include the ability to enter extended descriptions in General Ledger payments and receipts then split them between multiple accounts using a simple processing screen. This includes splitting GST for credit card accounts where a mix of local and international transactions (such as travel) occur in one item.

Payments - Bank: ANZ Bank Current Account

Account Code: 0000-22-333 Description: Payment
Account Title: Advertising Paid To: For Advertising

General Ledger

THE FAST AND USER-FRIENDLY ACCOUNTING SOLUTION

Structured General Ledger

Sybiz Vision General Ledger can be set up with three sections for activity-based reporting. You can record in detail, report in detail, then analyse your data in detail, leading to more effective and efficient business decisions.

Exchange Rate Revaluations

The Exchange Rate Revaluations feature is used in both the General Ledger and the subsidiary Accounts Payable and Accounts Receivable ledgers. Revaluations occur on changes in the exchange rate for outstanding transactions that are based on foreign currency. Foreign bank accounts are also revalued with respect to the local currency. Gains and losses are automatically calculated and posted to the desired General Ledger accounts.

Bank Reconciliation

One of the most common and most important tasks in a business is reconciling bank accounts. Bank reconciliations can be performed when required and progressive updates can be saved before processing the actual reconciliation.

Bank Reconciliation for WESTPAC CURRENT ACCOUNT in NZD

Date	Reference	Payee	Reconciled Previously	Reconciled This Session	Debits	Credits
31/07/01	0310796					32,104.95
31/07/01	0310796b					8,369.73
15/07/02	24867	Re: Wages & Salaries			128,531.17	
09/05/02	26650	Pecan Pie Purveyors Inc.			751.00	
15/07/01	30457	Evans & Pash			16,000.76	
15/07/01	30458	Californian Super Pty.			3,500.20	
15/07/01	30459	Donald Don & Co			105,290.44	

Match as Reconciled

Balance at Bank: 2,833,843.04

Foreign Currency Banks

Once you have defined your currencies you can set up foreign currency bank accounts. These bank accounts can be used to exactly match your overseas payment and receiving requirements.

Standing Journals

Journals can be set up for repetitive work as either journals or payments. There is even an auto reverse feature to provide speedy and accurate end of month reversals.
